PPM Thinking

simplified complexity

London

9th May 2019

info@hydeparksolutions.com

Welcome

We would be delighted to welcome you to the **PPM Thinking - *simplified complexity*** conference covering Project, Portfolio and Project Controls on Thursday 9th of May 2019, in London.

Join industry leaders in sharing best practice, success stories and insights into what it takes to run, manage and control successful projects, programmes and portfolios.

Our speakers and delegates cover many different industries and sectors and utilise different project management methodologies making this a fantastic event for learning and sharing.

We hope you will enjoy the day, find it interesting, engaging and valuable.

Foreword

Hyde Park Solutions has been at the forefront of Project and Portfolio Management, delivering successful enterprise solutions since 2007.

HPS is the global leader in Project, Portfolio, and Cost Management for capital intensive industries, with teams based in EMEA, USA and India.

Our team provides a comprehensive PPM service across Oil & Gas, Utilities, Travel & Transport, Manufacturing, Defence, Retail, Chemicals and Government.

We are a proud Oracle Platinum Partner, certified and specialised across Oracle Primavera's suite of PPM solutions.

We have an interesting line up of speakers and look forward to sharing this day with you.

Speakers

Geoff Roberts,
Director Global Strategy
(Energy & Resources)
Oracle

Geoff has over 35 years of experience in all aspects of project management & project controls.

Geoff has been with Oracle CEGBU for more than 18 years and is currently Director of Global Strategy for Energy & Resources. He provides strategic direction, domain expertise and insight on PPM within capital intensive industries.

Peter Green
Leadership Partner
Gartner

Peter provides advice and guidance, drawing from Gartner research, complemented with practical knowledge & experience gained working for and advising organizations across EMEA.

He brings a wealth of experience in understanding unstructured problem domains, developing strategies, solutions design and taking them through to tactical implementation and value realisation.

Kelly Wloczewski
VP Professional Services
Hyde Park Solutions

Kelly is a PPM and project cost controls subject matter expert with over 20 years experience of delivering high value solutions to clients across a variety of industries.

He leads the HPS team delivering solutions to capital intensive industries and is an Oracle certified professional.

Speakers

Rob Thom

Principle Consultant
Oracle

Rob has a strong technical background within data analysis combined with software development expertise. He is extremely organised with a considered approach.

He has a thorough knowledge of the full development lifecycle and technical skills. Rob was a developer in the earlier part of his career he likes to have a 'hands-on' approach with new projects and has a passion for technology, looking forward to the challenges presented by a technical role.

Hezron Ricketts

Mega Project Strategic Planning Lead
Th3rd curve

Hezron is a project controls specialist with deep skills in planning, cost management, risk analysis and delay assessment.

With expertise and experience in rail, engineering & construction Hezron is a specialist in Earned Value Management.

Speakers

Andrew Ross
Chief Executive Officer
Hyde Park Solutions

Andrew is a successful management consultant and technologist with 25-years experience in and around Investment management.

Andrew is proud to lead the HPS team in designing, implementing and supporting customers Portfolio Management, Project Management and Project Controls processes and solutions utilising industry best practice.

Steve Cooper
Vice President, Europe
Oracle

Steve Cooper is the Vice President of the Construction & Engineering Glocal Business Unit for Oracle, having joined as part of the acquisition of Aconex. Steve was formally General Manager at Aconex.

Matt understands the complexity that confronts construction and engineering firms globally and looks forward to sharing knowledge about Aconex as it solves these problems simply.
